Town Fathers Did Much Business At Council Meeting

Many And Important Were Matters Dealt With By Council At Monday Night's Meeting—Mill Rate To Be Struck At Special Meeting.

Monday night was council meeting night and the town fathers were plenty busy.

One of the chief items was the water by-law. Ratepayers are reminded that Thursday, June 15, is the date set for voting on this by-law, made necessary in order that the town may obtain the government loan with low interest rates. Passing of this by-law will mean a saving to the town of \$1,750 annually in interest alone.

Final approval was given to the request of the Northern Alberta Railways for diversion of a portion of Bear Creek. This will necessitate closing of a part of Fifth Avenue South, but the new railway bridge which will be built to replace the old structure will be a real asset to the town.

In order to be absolutely fair to all those who want town work, a resolution was passed that all men wishing work must register with Town Constable Harper. They will then be chosen with regard to residence in town, preference being given to married men with families who need work.

A by-law requiring all vehicles to come to a full stop ten feet from stop signs received three readings, and was passed. This bicycles and horse-drawn vehicles as well as motor vehicles must stop, look and listen for passing traffic.

The condition of the crossings was described as deplorable by the chairman of the works committee, who asked for suggestions as to the best method of dealing with this ever-recurring problem. "Tar sands, or salt, from Fort McMurray, gravel and"

LIBRARY EXPECTED TO BE OPEN IN ANOTHER WEEK

Donors Requested To Send Books In At Once So They Can Be Filed

The library committee are now at work indexing and preparing the books so far received for distribution when the library opens, which is expected to be in about another week. Those who have books they intend to donate to the library will facilitate this work by sending them in now so that they can be filed before the opening. Books may be left at Thomson Hardware.

The committee wish to thank the following for their donations: Sloan's Drug Store, mending sundries. Books: Miss M. Garrett and Miss J. Huston.

Provincial Liberal Convention To Be Held July 7th

Primary Meetings To Elect Poll Delegates June 26—Primaries Open To All, Regardless Of Political Affiliations In The Past.

The executive of the Grande Prairie Provincial Constituency Liberal Association decided at a meeting held in the Grande Prairie Hotel on Saturday evening, June 3, to hold a nominating convention at Grande Prairie on the afternoon of Friday, July 7.

Primary meetings to elect delegates to the convention will be held in each poll on Monday, June 26. The primaries will be open to all regardless of what their political affiliations may have been in the past. In order to provide for fuller representation, a by-law was passed in addition to each thirty-five votes, or the major fraction thereof, cast at the last provincial election in each poll, instead of one delegate for each fifty votes, as provided in the constitution.

A committee consisting of H. W. V. Clarke, T. W. Lawlor, L. C. Porteous and E. J. Holton was appointed to handle the arrangements for the convention.

The new Grande Prairie Provincial Constituency extends to Valleyview on the east and the British Columbia boundary on the west. The northern boundary is at the top of Mercer Hill just north of Clairmont, but in the west end the boundary swings northward to include Hythe and Brainerd in this constituency.

Art Course Begins In Grande Prairie Friday, June 16

H. G. Glyde, A.R.C.A. An Artist Of Real Ability, Will Be Instructor—Sponsored By Dept. Of Extension, University Of Alberta.

H. G. Glyde, A.R.C.A. (London) is expected to arrive next week to conduct a Short Course in Art under the auspices of the Grande Prairie Art Club, in cooperation with the Institute of Technology and Art, Calgary. The course will begin June 16 and continue for two weeks.

Mr. Glyde is well known, not only as an instructor but as an artist of real ability. This Short Course in Art, which is sponsored by the Department of Extension of the University of Alberta, is a splendid opportunity for all those who wish to add to their skill in the various media of drawing and painting. A large class is expected to be enrolled. Further particulars may be obtained from R. Philp, president of the Grande Prairie Art Club.

EDMONTON LIVE STOCK
Edmonton, June 7.—Up to noon trucked-in bacon sold at \$9.10.

W.I. Conference At Beaver Lodge Next Tuesday

Promises To Be Most Interesting And Successful Event—Canadian Utilities Has Donated Cup For Most Points In Handicraft.

The annual conference of the Grande Prairie Constituency of Women's Institutes will be held in Beaver Lodge on Tuesday, June 13. Plans are now being completed for what promises to be a most interesting and successful conference.

The first session will open at 11 a.m. Following an adjournment for lunch, business will be resumed in the afternoon.

Of particular interest to Institutes exhibiting handicrafts is the announcement of a cup donated by the Canadian Utilities to the Institute scoring most points in handicraft. Individual prizes will also be given in each class. To facilitate the work of the judges, persons exhibiting are asked to have all entries in before the morning session, if possible. Mrs. J. Weicker of Sexsmith is convener of handicrafts.

Mrs. Judy Perry will give a demonstration of weaving.

Mrs. W. R. Roberts, northern director, will be present and will address the conference. A musical program will be enjoyed during the afternoon session.

Any further information may be had from Mrs. W. J. Thomson, constituency convener, Grande Prairie.

T. C. of M. Exams To Be Conducted By E. J. Farmer

Ernest J. Farmer, who will be in Grande Prairie Tuesday and Wednesday, June 13 and 14, to conduct current examinations of the Toronto Conservatory of Music, is widely known as an examiner, having represented the Toronto Conservatory in nearly 150 Canadian towns and cities since 1923.

Mr. Farmer comes from a family of musicians. Born in Woodstock, Ont., he is the oldest son of the late Dean Farmer of McMaster University. His mother was one of the pioneers in establishing modern methods of music class instruction in Toronto. His brother, Broadus, is well known as a violinist.

At the Ontario Musical Festival in 1923 Mr. Farmer's pupils took first place in eight of the twelve piano categories and he has since been adjudicator at the Canadian National Exhibition at Toronto and other musical competitions throughout Dominion.

Nova Defeats Baer

On Thursday night of last week at the Yankee Stadium, Lou Nova won the eleventh round with a technical knockout over Max Baer in a scheduled fifteen-round battle in the heavyweight division.

IS POSTMASTER AT BELLOY

Jack Culshaw of Watino has been appointed postmaster at Belloy and will shortly enter upon his duties. Mr. Culshaw is well known in the Grande Prairie district, having once lived at Clairmont. He is a returned man.

Many Northern Youngsters See Their Majesties At Edmonton

Life On Train Was A Little World In Itself—Children In Charge Of E. G. Nepestad Of Hythe And Bert Churchill Of Sexsmith, Who Were Assisted By Several Ladies—Scouts Do Many Good Turns During Journey.

The outgoing passenger on June 1, filled to capacity, principally with boys and girls, was a little world in itself. Anticipation ran high, for the reason that the train was running along towards Edmonton, where they were to see the King and Queen.

On the train were representatives from Fort St. John and all along the line right down to High Prairie. Twenty-eight of this number of children had never been on a train before. However, they took to the train mode of travel like a duck to water and gave no sign of nervousness.

There was a sprinkling of Boy Scouts from Grande Prairie, who were under the direction of Scoutmaster Frank Edmundson. One of the obligations of a Scout is that he do a good turn each day. Now these energetic young chaps did many good turns on the train.

Assisted by several ladies, E. G. Nepestad of Hythe and Bert Churchill of Sexsmith had charge of the boys and girls. Some fifty arrived at Grande Prairie from the Block A few more were picked up along the way from there. At Grande Prairie a goodly number responded to the call, "All aboard!"

More children were picked up at Clairmont at Sexsmith, a small band played the train in and out. Ed. Curney and other vets assisted the happy group.

On sped the train and at each station more future citizens joined the happy group.

Pupils of a school near Presteville gave several rousing cheers as the train passed. The fact that they were not among the lucky ones did not interfere with wish-

Spirit of Good-will On Every Hand At Edmonton During Royal Visit June 2

By Tribune Representative.

Across the front of the Empire Barber Shop, located on First Street, Edmonton, was a sign which carried the following words: "Better Loved Ye Chans Be" taken from an old Scottish song. The sentiment expressed in these words could be taken as the spirit of good-will which was evident on every hand during the Queen's visit to Edmonton on June 2.

In its preparation for the celebration of the visit of the Queen, Edmonton was proud—so much so that the decorations and general program was considered the finest of all the celebrations that had taken place during the Queen's visit to Canada.

The highlight in the decorative scheme centred on Portage Avenue, where flags and pennants lined both sides of the avenue for two miles. So striking was the effect that the Queen observed the decorative scheme was the finest they had seen in all Canada.

At night the centre part of the

Sat., July 1st To Be Celebrated At G. P. Big Sports Program

As This Is Canada's National Holiday All Children In The Peace River Will Be Admitted Free—Good Prizes Offered For All Lines Of Sport.

First of July, the day on which Canada was confederated, will be celebrated at Grande Prairie by holding the town's annual sports in Recreation Park under the auspices of the Grande Prairie Athletic Association.

Festivities will commence with a big dance in the Old Capitol Theatre on Friday night, June 30. Bert Churchill's orchestra has been engaged for the occasion.

A full day's fun for old and young

(Continued on Page Eight)

Father Of Herman Trelle Died At Los Angeles June 7th

Herman Trelle received a wire on Wednesday morning which contained the distressing news that his father, Andrew George Trelle, had died at Los Angeles, California.

The late Mr. Trelle, who was in his 75th year, was well known in this part of the Peace River. He came into the country in 1909 and settled on land in the Lake Saskatchewan district at the same time as Henry Roberts, Jack Sutherland, Joe Moore, the Smith brothers and other old-timers settled in the western area.

After ten years he moved to Los Angeles, where he engaged in building contracting.

Besides Mrs. Trelle, one daughter and one son survive—Mrs. Lorne Smith living at Los Angeles and Herman living in the Wembley district.

G. P. Horticultural Society Meeting Friday, June 9

The Grande Prairie Horticultural Society will hold a meeting in the Town Hall, Grande Prairie, Friday night, June 9. At this meeting the date for the Annual Flower Show will be set.

Members and all persons interested are urged to attend.

A Reminder To Mr. Wm. Irvine

Dear Mr. Irvine:—

Sometime last fall you addressed a somewhat truculently worded letter to me through the local paper, challenging certain statements I was supposed to have made at a U.F.A. convention in Grande Prairie and demanding that I debate the whole matter with you, on certain terms which you laid down, at a time and place which suited me.

I accepted your terms and suggested that we take the matter up as soon as it was convenient for you to be in Grande Prairie. In January, however, I received a letter from Mr. C. E. Lee, president of the C.E.F. organization in Edmonton, suggesting that since I would be in Edmonton that month, they would like to hold the debate there in the Masonic Temple as part of a program of similar debates that were being arranged.

This was agreed upon, with the reservation in my letter of acceptance that whenever you visited Grande Prairie we should debate the matter there as originally planned. Understanding that you will be in this district during the last week of June, I wish to remind you of this engagement.

In doing this I have no desire to embarrass you or those who are arranging your meetings. I believe that this debate will give the general public a better opportunity to get acquainted with the C.E.F. provincial program than they would have at an ordinary meeting and that a larger and more representative audience will be present. I would remind you also that your original letter made you party to what might be termed a local controversy and that the Edmonton meeting did nothing to clear that up, since most of the local people who were interested did not see or hear any report of that meeting.

Yours truly,
HUGH W. ALLEN.

P. THORP & SON RECEIVE CAR OF WILLYS-OVERLANDS

Last week Percy Thorp & Son took delivery of a carload of Willys-Overlands. The shipment was made up of standard and de luxe sedans in colors. A Nash air conditioned de luxe model has also been received by this firm.

These superb cars are on display in the company's show-room and the public are cordially invited to call and inspect them. They will be gladly demonstrated to anyone interested.

S.R. Woman Killed By A .22 Cal. Bullet

Ed. Lillio is Believed To Have Shot His Sister—In Law, Mrs. James Lillio—Also Fires Shot At Nephew—He Found In His Own Home By R.C.P. With Gun In His Throat And Is Taken To Hospital.

SPRIT RIVER, June 8.—E. Lillio, a bachelor living a few miles from Spirit River, is alleged to have shot his sister-in-law, Mrs. James Lillio, early yesterday (Wednesday) morning, in her own home.

The husband and one of the sons were out in the barn about 6 o'clock, making preparations to go to the Spirit River sports, when they heard a shot. They ran towards the house, where Ed. Lillio stood at the back door with a twenty-two in his hand.

As the son neared the house, Lillio is reported to have shot at him. A struggle ensued and the father and son disarmed Lillio, who immediately went in the direction of his farm. It was not known before that he had shot his sister-in-law.

The little daughter of Mr. and Mrs. Lillio came out of the house and said her mother was hurt. When the father and son entered the house they found Mrs. Lillio lying on a couch with a bullet hole in her chest. She died in a few minutes.

Later the R.C.M.P. found Ed. Lillio in his own house with a gun in his throat and bleeding badly. He was rushed to the Spirit River Hospital. It is believed he will recover.

No motive is known for the crime, as the most friendly relationship existed between the Lillios and his brother's family. Many here are of the opinion that Ed. Lillio is depressed.

Exhibition Game Of Baseball Played Last Sunday

Seniors Defeat Juniors—Those Who Deserve Play-Off Games For League Cup Are Requested To Get In Touch With Earl Parrish, Secretary Grande Prairie Athletic Association.

The Junior and senior baseball teams played an exhibition game in Grande Prairie on Friday night. The game was fast in pace and the players showed lots of promise. Seniors chalked up the winning score, but Juniors were not so far behind.

As there is no regular baseball league in the Peace River this summer, it is suggested that all teams which played in last year's league and which are still interested in the League Cup, get in touch with Earl Parrish, secretary of the Grande Prairie Athletic Association, with a view of arranging home and home games as a play-off for the cup.

Let your year be a good baseball year. How about this?

FERRY ON SMOKE AT WATINO PUT INTO SERVICE SATURDAY

The new ferry across the Big Smoky at Watino has been completed and was put into service last Saturday.

Oscar Kenney of Grande Prairie has been appointed to have charge.

Virginia Clarke, daughter of Mr. Leckie, H. W. V. Clarke, has a birthday party Wednesday. Virginia forgot to report how old she was.

MASONS' BASKET PICNIC AT DUNVEGAN JUNE 18TH

A basket picnic will be held at Dunvegan on Sunday, June 18, sponsored by Spirit River and Fairview A.F. & A.M. Lodges. All Masons and their families are cordially invited to attend.

CANADIAN LEGION SMOKER

The Grande Prairie branch of Canadian Legion will hold a smoker in new hall on Friday, June 9, at 8 o'clock. All returned men are welcome.

BIG BROADCASTING JOB

WAS WELL DONE BY

RADIO STATION

Many who were unable to go to
Edmonton for the Royal Visit found
the splendid radio broadcast a good
substitute. The three Edmonton
radio stations—CJCA, CKUA and
CFRN—pooled their resources for the
event and, aided by CBC, covered
all phases so efficiently that listeners
believe they know more about the
Royal Visit than the lucky ones who
saw the King and Queen.

What happened at Spirit River is
typical of other places. Steve
Keay placed a radio receiver outside
his store and supplied seats for some
thirty listeners, who, enthralled by
the broadcast, stayed for several
hours.

On behalf of listeners in its territory,
The Tribune thanks the radio
stations and congratulates them on
doing a big job in a satisfactory and
efficient way.

MAIL BOX

ROUGH ROAD TO HOSPITAL

To the Editor of The Tribune:

During the past week I had occasion to make two trips to the Grande Prairie Municipal Hospital with a patient for that institution. After travelling approximately twenty-five miles of deplorably rough roads to reach the Grande Prairie hospital, we had fairly smooth riding until we reached the road that leads from your main street to the hospital. Here we encountered what I consider one of the most deplorable conditions that I have ever seen. It is a road that exists in your fair little city. Deep ruts with seemingly bottomless holes, with the truck bogging down on one side of the road to the other, go to make up the worst piece of road that a sick person is ever obliged to cover in trying to reach a bed of relief and comfort.

Surely something can be done by the powers that be to correct this deplorable condition. There must be a mayor and a council that are not that careless about a street that passes two of the loveliest houses to be found anywhere in the Peace River country. Surely if necessary you could ask for a tractor and road grader to come and rectify this terrible street. Let's have the city think if the truth were known there are dozens of farmers not five miles from Grande Prairie who would be glad to repair the street free of charge. Or will the people of Grande Prairie and district have to be reminded by your city officials is stricken with sickness and compelled to take a ride over this street before they can realize its condition. Our suggestion is that someone in Grande Prairie wake up and see, because this is not only a matter of gross neglect on the part of some of the city fathers, but it is a matter of gross neglect on the part of some of the city fathers who are suffering pain and in some cases may be taking their last automobile ride.

Belloy, Alta. E. STAUFFER.

(Editor's Note—Since the above writer's last visit to the hospital the street mentioned has been graded. While still not perfect, it is much better than it was.)

Town Fathers...

(Continued from Page One)

asphalt, as well as wood, were discussed as materials for crossings, the decision hinging somewhat on whether crossings were to be built for the benefit of motorists or pedestrians. The matter was left in the hands of the works committee, the choice being of financial necessity—between gravel and wood.

The barricade erected at the south end of town opposite the residence of Mayor Lawlor will be removed and placed to good advantage along the brow of the hill opposite Dr. O'Brien's residence. It was decided. Objections had been made to the closing of the street.

The use of the town park to stage a July first sports, instead of on the Exhibition Grounds, was requested by J. Kerr, representing the Grande Prairie Athletic Association. This request was granted, the committee being of the opinion that it would be an advantage to all who wished to attend.

A letter endorsed by every civic and religious organization in London, Ontario, dealing with the problem of transient relief, was read. The matter was turned over to the relief committee for study and will be brought up at a later meeting.

Discussion of the mill rate and tables of figures bearing on this promised to be quite prolonged, so the matter was turned over to the finance committee, who will meet Thursday night of this week. A special meeting of council will then be held the following Monday night, when the mill rate and other matters will be discussed.

After the social buffet luncheon was served, the happy couple left by car for Edmonton, Bashaw being in charge of the party. The end of June, they will take up their residence in Beaver Lodge, where Mr. Jarvis is in business.

Accounts to the amount of \$804 were passed for payment.

Many Northern.. Local and General

ing those who held the lucky tickets the best of wishes.

At Rycroft lunch was served by the C.G.I.T. and at McLennan by the McLennan inspectors.

One thing which the boys and girls could not understand was why the train from the north, which also carried a good representation of boys and girls, should be given the preference and leave for Edmonton before the Dawson Creek train. One of the older boys remarked: "I think a coin should be flipped, so as to give us at least a sporting chance."

Led by Mr. Nepestad and Mr. Churchill, the young folks had a very good time. They were indulged in at intervals all along the route up to a little after 10 p.m. Following the concluding number, "Home Sweet Home," the boys and girls then sang "For They Are Jolly Good Fellows." The ones then gradually "cuddled down."

A bevy of the larger boys and girls took possession of one of the smoking rooms and held a concert all their own. They were promptly called the Nightingales.

Long before the train arrived at Edmonton, the young folks had their belongings packed and all ready to go. The very small children were taken care of before being allowed to leave the train.

Finally the train entered the city, and when the first building was passed one boy shouted, "Gee, look at that! That's another of the million dollars!" Others busied themselves reading aloud the large signs on the walls.

At last the long train pulled alongside the C.N.R. station and everyone disembarked at the long curbside. From there the children were taken in charge by proper chaperones and the train was allowed to leave.

TECHNOCRACY AND "THE WORKERS"

(Inspired by H. McDermid's column "The Northern Tribune re 'Technocracy, Socialism or Communism.'")

Dear still "non-suffering" Editor:

Perhaps this letter should have been entitled "The Thomas Cat," and thus, in mentioning the word "cat," the writer would have made Mr. McDermid feel at home!

My first impulse is to inform Mr. McDermid that he appears to have gotten a bit mixed concerning many things about which he boldly makes very emphatic assertions. For instance, notwithstanding anything Mr. McDermid has to say to the contrary, the record shows that the Technocrats not only noticed what happened in 1929 but they predicted it that what did happen in 1929 would happen about that time! Just to show you what Technocracy's survey and analysis which was started in 1919, made it possible for Technocrats to, almost accurately, predict here are a few authentic samples of their predictions and an account of the fulfilment of them—

PREDICTION—1921:
"The increase in the total number of working hours in the United States during the past few years has been phenomenal. It has increased from 100,000,000 in 1919 to 130,000,000 in 1921. This increase has been due to the fact that the Technocrats have been able to increase the productivity of the workers by the use of their scientific methods."

PREDICTION—1921:

TECHNOCRACY AND "THE WORKERS"

(Inspired by H. McDermid's column "The Northern Tribune re 'Technocracy, Socialism or Communism.'")

done—bring back prosperity. Lib-

erals held office in six provinces with the exception of the majority in the provincial legislatures, and were the government by consent" in a seventh. In Alberta the Social Credit party voted to victory on promises to provide all citizens with monthly dividends, interest-free loans and a social credit scheme which would eradicate unemployment in the province.

Since 1935 the governments of Canada have stumbled from one fiasco to another. Premier King stated in 1935 that unemployment was Canada's most serious problem, but at the same time as when he took office, a National Employment Commission, Home Owners' Improvement schemes, loans to municipalities for public works, Youth Training schemes, and stimulation of the economy by means of greater government expenditures have failed to make a dent in the unemployment problem.

Today, never was the cry for leadership louder. The public press of the day is full of organizations and prominent business leaders cry for a solution to the difficulties of the day, and in answer to their cries is offered a plethora of palliative proposals—the nostrum theories of the Herriedes and the McAllans. The Technocrats states that this parade of incompetencies for public works, Youth Training schemes, and stimulation of the economy by means of greater government expenditures have failed to make a dent in the unemployment problem.

Timely Hints From the Beaverlodge Sub-Station

By W. D. Albright

"IT IS A PLEASURE AS WELL AS A DUTY TO SERVE"

A Field Men's Conference

At the Experimental Farm Superintendent's Conference in Ottawa last winter it was suggested that each agriculturalist in his territory visit his station on some appointed day in order to acquaint themselves more fully with its results and be in a position to pass these on to the public. The Beaverlodge staff expanded the idea to make the exchange reciprocal. Every farm is to some extent experimental. That is to say, every farmer is following some practice or other. He may seldom make tests supplying data for tables but his efforts yield observations. These tend gradually to establish the farm practice of the neighborhood. If the general body of experience can be gathered up and correctly interpreted along with whatever results the trial stations afford, the net result should be helpful to all.

Take, for instance, the matter of soil-drilling control. The Substation has demonstrated to its own satisfaction the effectiveness of the surface and of trash cover, but has had little experience with practices with certain other implements. It was felt that the observations of the fieldmen would be very useful in this connection.

A two-day gathering was accordingly called for May 22-23. It was attended by three district agriculturalists (one from British Columbia and two from Alberta), by the local inspectors and one Soldier Settlement supervisor. An evening session was thrown open to the local public. The program was packed. The visitors were put through a series of talks. Discussions were harmonious but pointed and practical. Everyone felt the event was a success and voted to repeat it next year.

Much Abo About Cutworms

The conference was unexpectedly fortunate in the presence of Kenneth M. King, in charge of the Dominion Entomological Laboratory at Saskatoon, Sask., who arrived by aeroplane on May 28. In 1935 Mr. King had spent several weeks in the Peace investigating the wireworm problem. This time he comes to study cutworms.

The Saskatchewan laboratory has in the past given special attention to the red-backed group of cutworm species but of late there have been comparatively few of these at Saskatoon and Mr. King was glad of a chance to help us by experimenting further with them for a week or two in co-operation with the Substation. In his first three days scouting through the Grande Prairie district he found a prevalent infestation of wireworm damage in some areas. The dry spring and unusually large numbers of the insects account for the fact of there being such a considerable amount of damage at this early date. Prior to field examination he had suggested the possibility of an infestation of one of the over-wintering species of the "early" cutworm group. The red-backs, however (together with wireworms), prove to

be the culprits, and they are still in a comparatively immature state. Had the dry weather continued and had no disease nor predators appeared to destroy the cutworms, a widespread crop disaster might have been expected. Fortunately, the weather at the end of May was arresting their growth and threatening their health, while the crop is rapidly growing and injured plants have a good chance to stand out and recover. In all probability, however, spot poisoning is still necessary in places that are being badly thinned.

The red-backed cutworm prefers the broad-leaved plants such as clover, alfalfa, flax and various other crops. In one alfalfa seeding on the Substation Mr. King counted cutworms at the rate of over a hundred per square foot. The alfalfa in this area was bleached and stunted. Yet the grain crops on the Substation have been little injured except in a few places along old edges. The Substation garden has this year been almost free of cutworms down to the end of May. It is probable that this is because the clover plants had bloomed in the year of seeding, yielding nectar to the worms. Research has shown that the female of the red-backed cutworm cannot lay eggs till she has had nectar to feed upon.

The red-backed cutworm is not a single species but rather a group of similar species not readily distinguishable by the appearance of the larvae. This helps to explain the irregularity in the hatch and the varying rate of the worms found in the fields. Other factors are the date at which the eggs were laid and their subsequent development, for they require an incubation period with some warmth. Early warming of the ground in the spring favors an early hatch, but it must be remembered that the eggs will not hatch without moisture.

When the egg hatches the larva passes through six instars or stages, shedding its skin each time to permit further growth. Other things being equal, a healthy cutworm may eat about as much in the last instar as in the five preceding ones, so it is fortunate that something occurred towards the end of May, for few had then passed the fourth instar.

Unfavorable weather may induce wholesale disease of cutworms, sweeping them away, so that a district may remain comparatively free from them for awhile. A prolonged period of wet weather, however, is health. Certain predators attack them, notably the fiery ground beetle, but the insects are so numerous that a prevalent infestation will do little damage in some areas. The dry spring and unusually large numbers of the insects account for the fact of there being such a considerable amount of damage at this early date. Prior to field examination he had suggested the possibility of an infestation of one of the over-wintering species of the "early" cutworm group. The red-backs, however (together with wireworms), prove to

be the culprits, and they are still in a comparatively immature state. Had the dry weather continued and had no disease nor predators appeared to destroy the cutworms, a widespread crop disaster might have been expected. Fortunately, the weather at the end of May was arresting their growth and threatening their health, while the crop is rapidly growing and injured plants have a good chance to stand out and recover. In all probability, however, spot poisoning is still necessary in places that are being badly thinned.

Secondly, it keeps them down below the surface, where they cannot

"CANADA CALLING" IN BRITAIN

Typical of scenes witnessed at cinemas in some of the principal cities in Britain these days is the above photograph, showing English schoolboys trooping into a theatre at Reading, England, to see a special screening of films provided by the Dominion Government. One of the many activities of the "Canada Calling" campaign, the films depict land, fishing and industrial scenes

readily be poisoned and where they do the seedlings close to the seed, reducing the plant's chances of recovery.

Thirdly, the cutworms develop a thirst which may lead each cutworm to attack several plants, whereas otherwise it would feed quite a while on a single plant.

Fourthly, drought retards the growth of the crop, keeping it longer in a vulnerable stage and affording injured plants a poor chance to recover.

All these conditions prevailed in 1938 and in the first part of May, 1939. A succession of seasons with May and June weather favors an economical increase of cutworm population, but it is the ideal time for decrease or almost disappear as the rabbits do.

To save crops that have been attacked by red-backed cutworms, poisoned bran bait has proved successful under most conditions. In gardens poisoning should be resorted to regularly on a field scale too. It is definitely practicable where the pest is sufficiently numerous to damage the crop seriously. The bait is prepared; ordinarily only portions of a field need be poisoned. A warm evening with rain is the ideal time to spread bait. Failure with poison occurs when there is a combination of cold, dry weather and a heavy seedling.

The bait has been recommended by Mr. King is 50 pounds bran, 1 pound Paris green and half a gallon of water. The water should be added with all the water that can be added without its seeping away. Spread thinly by hand or with a mechanical seeder, flaking it out thinly and evenly. This applied, 20 pounds will cover an acre. Repeat applications may be needed in gardens.

Mr. King is experimenting with various baits, seeking to combine some substance to keep the bait moist and appetizing. For some reason beet molasses is not attractive to cutworms. There is doubt as to the source of the best molasses locally available. All these points go to explain the disappointing experience many people have had in times with cutworm baiting and the further research into the problem.

Points on cultural treatment will be published in season. Means Mr. King suggests that some of the damage attributed to cutworms has been really caused by wireworms, which are favored by the same sort of spring weather and early summer and which under dry conditions, especially, travel along the rows, eating the germ out of many seeds and attacking many seedlings so that it would look to casual appearance as though the grain had not started at all. Definite evidence of wireworm damage is found in almost every field examined.

There has been some speculation locally as to whether fall plowing may not have been a factor in reducing attack, but the case is not clear. Mr. King cites the case of a farmer in Saskatchewan who blamed all his loss on fall plowing. Finding a cutworm infestation on one area he recalled that he had fall plowed that field eight years ago! As the cutworm has an annual life cycle the connection was indeed remote. It is so easy to draw incorrect conclusions from field data.

Many of these things are like sleight-of-hand performances. While the observer is watching one thing Nature does something else.

IT ALL DEPENDS

Woman Juror Had Open Mind On Capital Punishment

The judge was about to hear an action in the High Court when a woman juror rose and requested exemption from service on a plea that she was a non-believer in capital punishment.

"But this is a civil action," the judge explained, "and has nothing whatever to do with capital punishment. It is brought by a woman who gave her husband two hundred pounds to buy her a fur coat. The husband, instead of buying the coat, lost the money gambling, and now his wife is suing him for the return of her two hundred pounds."

"Oh, indeed, is that?" replied the juror, "I have no objection to serving." She pondered a moment and then added thoughtfully, "And, perhaps, after all, I was wrong about capital punishment."

Few markets are as unusual as the one market in Berne, Switzerland. It is held once a year on a Monday in the second half of November, and dates back to the Middle Ages.

THE FINANCIAL NEWS MARKS 11TH ANNIVERSARY WITH SPLENDID EDITION

Marking its eleventh anniversary, The Financial News of Vancouver has issued a 30-page special supplement to its regular issue of May 26. Reviewing in detail the progress of individual western mining and oil companies during the past year, and including, as well, sections relating to the lumber, fishing and manufacturing industries, this year's special number of The Financial News has broadened its scope considerably. Included in the issue is a considerable amount of information concerning

NEW LEGISLATION DESIGNED TO IMPROVE CANADIAN CHEESE

The Cheese and Cheese Factories Improvement Act which has been passed by the Dominion Parliament is not only designed to improve conditions in Canadian cheese factories but to raise the proportion of high scoring cheese produced in Canada. The milk producers who supply milk to cheese factories in which 93 and 94 per cent of the milk is used for cheese benefit to the extent of two cents per pound for 94 score and one cent per pound for 93 score milk.

Naturally the cheesemaker has a great deal to do with the quality of the cheese. He must select the best milk producer, however, must co-operate to the fullest extent as no cheesemaker can make high scoring cheese unless he has clean, pure milk which has been properly cooled, to start with.

An important section of the Act deals with sanitation and the position of Canadian cheese in the United Kingdom market, where for many years the best type of Canadian cheese has been rated as the finest Cheddar cheese imported from any country and where most of the factory cheese made in Canada is sold.

The principal purpose of the Act is to maintain and improve the position of Canadian cheese on the United Kingdom market, where for many years the best type of Canadian cheese has been rated as the finest Cheddar cheese imported from any country and where most of the factory cheese made in Canada is sold.

IMPORTANT DECISION TO DAIRY INDUSTRY

A legal decision of importance to the dairy industry and to purchasers of dairy products in Canada has been handed down by The Appeal Court of Manitoba. The court has ruled that the provisions of The Dairy Industry Act are within the jurisdiction of the Parliament of Canada. This decision is the result of a prosecution taken by the Dairy Products Division, Marketing Service, Dominion Department of Agriculture, against the Perfection Creameries, Ltd. of Winnipeg for having manufactured butter containing more than 16 per cent water.

The trial was held on November 3, 1938, at which time counsel for the defense argued that the power to enact that particular section of The Dairy Industry Act which was deemed to have been violated was not specifically given to the Dominion Parliament under authority of The British North American Act. Defense counsel maintained it was purely an enactment dealing with property and civil rights and as such exclusively within the legislative competence of the provincial legislatures. The presiding magistrate handed down a judgment in favor of the defense. The stated case on the question of the validity of the legislation was presented by the magistrate.

The Appeal Court of Manitoba held that the purpose of the legislation in question was to protect the public from dishonesty or fraud and was in effect "criminal law." As such the Parliament of Canada has authority under The British North American Act to enact and enforce such legislation with the provinces. It was ruled that subsection 2 of section 6 of The Dairy Industry Act is within the powers of the Dominion Parliament. The decision prohibits the manufacture of butter containing over 16 per cent of water, or

less than 80 per cent of milk fat. The decision of The Appeal Court of Manitoba directs a continuation of the trial of the above mentioned creamery for having manufactured butter which was illegal under The Dairy Industry Act.

METHOD OF CONTROL CABBAGE MAGGOTS

At this time of the year the cabbage maggot, which attacks cabbages, cauliflowers, turnips, radishes, and similar plants, is active. It can be controlled by the use of corrosive sublimate diluted in water at the rate of one ounce to 10 gallons. An important point is that the sublimate should be mixed in glass, earthenware, or wooden vessels, because it loses much of its strength when brought into contact with metals.

Two or three days after the plants have been set out in the field the solution should be poured over the stems and around the base of each plant, using about half a cupful per plant. Care should be taken to wet the stems thoroughly, as well as the soil immediately surrounding the base. Two subsequent applications should be made, the second seven days after the first application and the third seven days later, making three treatments in all.

In the case of radishes, the solution should be poured over the young plants about three days after they appear above ground, and a second application should be made when the radishes are well up. Radishes should not be treated with the solution when they are in the stem, as the corrosive sublimate is a deadly poison to human beings and animals. Great care should be taken in its use at all times.

MILADY'S FUR COAT IS BIG BUSINESS IN CANADA

The production of women's fur coats in Canada is one of the principal manufactures of the fur industry of Canada, which supplies practically the entire demand of the Canadian public for fur coats, capes, collars, cuffs, muffs, and other items of fur manufacture of women's wear. The fur coat produced in Canada has shown a steady annual increase, mounting from \$1,604 coats in 1933 to 1,637 in 1937, while the total value of fur coats has risen from \$6,704,138 to \$9,517,721. The import and export trade of the Canadian fur industry are of relatively small importance, because Canadian consumption absorbs the bulk of the products, which have had an annual average value for the 17-year period, 1921-1937, of \$14,785,812.

BACTERIA IN MILK

A farmer spends a lot of his time working with and under the feet of his cows, cultivating the kinds which are of value and destroying the weeds, but there are millions and millions of other forms of plant life on the farm which are too small to be seen and which are the smallest form of plant life, made up of only one cell. Many of them have a distinct value to the farmer—others are undesirable. In milk the presence of bacteria is highly undesirable. Modern means of cleanliness and pasteurization have made milk a safe food and proper handling of the milk keeps bacteria from multiplying.

The Test of Time

The rejected suitor arose with dignity to his full height. "Then this is absolutely final?" he asked. "Quite," the girl calmly replied. "So I'll return your letters." "Yes, please. There's some very good material in them that I can use again."

WHEN IN VANCOUVER

Be safe and comfortable. Make your reservations at the

Ambassador Hotel

Absolutely FIRE PROOF

Newly furnished and decorated. Rooms single and double with private bath.

Rates from \$1.00 per day. Special Weekly and Monthly Rates.

CAULIFLOWERS NOW BEING SHIPPED LONG DISTANCES

Wrapped in absorbent paper with an outside covering of greaseproof paper, fresh cauliflowers have been delivered in fine condition at Singapore, the Dutch East Indies, New Guinea, and other parts of the Orient from Australia. The absorbent paper prevents the cauliflowers from wilting as the result of excess moisture when the cauliflowers are taken out of the "cool" refrigerated hold. The cauliflowers are cut in a slightly immature state, and several large shipments have been made by a Melbourne market gardener.

DISTRIBUTION PLAN FOR SURPLUS BUTTER

Plans for the distribution of surplus butter have been announced by the Dominion Department of Agriculture. The Canadian Red Cross Society will be in charge of the distribution in all provinces of the Dominion and will utilize existing provincial organizations to carry out the distribution among relief recipients, and for distribution of butter to the needy. The aid of charitable organizations and municipal authorities is being sought.

Officials of the Department of Agriculture have expressed appreciation of the hearty cooperation of the various groups assisting in the scheme. The proposed method of distribution is simple. Vouchers of three denominations, one, two and three pounds, respectively. Each voucher will show to whom and by whom it is issued, and may be exchanged at any retail store by the person only to whom it is issued, for the amount of butter indicated on the voucher. The merchant delivering the butter certifies to the amount, the price and the recipient, and the latter signs the voucher acknowledging receipt of the quantity stated. These vouchers, when properly certified, may be cashed by the merchant at their value at any branch of any chartered bank in Canada.

As the basis of distribution among relief recipients differs from that among families on low incomes, two general types of vouchers will be issued. As families on relief will receive this butter in addition to their regular supply, it is provided on the vouchers issued to a relief recipient that for each pound of butter supplied through regular relief channels, the recipient may exchange his voucher for an additional pound of butter. Therefore, made for the relief recipient to obtain twice the quantity of butter he normally receives. In the case of low-income families not on relief, however, this stipulation obviously would not apply and vouchers are issued for the use of such families which may be exchanged by the holder for their face value in butter without requiring them to purchase a like amount of butter.

Vouchers have been sent to the various provincial headquarters of the Canadian Red Cross Society.

POISON SPRAY FOR TENT CATERPILLARS

It is anticipated that forest tent caterpillars will be active in eastern Canada this season. J. E. McGee, Chief of Forest Insect Control, Dominion Department of Agriculture, reports that already they have commenced operations and that now is a good time to prevent infestation. Since the caterpillars feed on leaves, it is possible to kill them with a arsenate spray consisting of a mixture of arsenate of lead and water, at the ratio of two and a half pounds of arsenate of lead per 100 gallons of water. Where only a few caterpillars are present, it is not necessary to make a large quantity of spray, an effective dose can be made up of one ounce of arsenate and one quart of water, of the lead

arsenate powder to a gallon of water. Periodic outbreaks of tent caterpillars occur also in the Prairie Provinces. Large areas of woodland and plantations are completely stripped of their foliage and the ravages of the caterpillars cause considerable alarm and discomfort. Sometimes even financial loss in heavily infested districts. The caterpillars have the habit of migrating in large armies in search of new food and frequently swarm over roads and railway tracks in such numbers as to interfere seriously with traffic. Further information on tent caterpillars and how to combat them may be obtained by writing to the Division of Entomology, Dominion Department of Agriculture, Ottawa.

NON-MAGNETIC SHIP TO BE USED BY SCIENTISTS

A ship with no iron or steel in her hull was launched recently in the River Dart at Dartmouth, England.

She is the non-magnetic exploring ship, which will spend her time roaming the ocean so that scientists may study the mystery of electricity in the sea.

She is a metal-less because of the delicate instruments on board. She is a metal-less because of the delicate instruments on board. She is a metal-less because of the delicate instruments on board.

Sticking his head out of a steam-dripping at Stornoway pier, the stoker was surprised to see a man sleeping in the foot of the ladder.

He awakened him and asked: "Where did you come from?"

"Stornoway, before I died, Mr. Satan."

This is Life Insurance

IN THOUSANDS OF Canadian homes, life insurance money pays the bills—helps to support widows and children—and provides for old age.

Life insurance dollars buy the food for three square meals a day. They buy clothing and other necessities of life. They pay the rent and fuel bills to ensure warm, comfortable homes. They give children an education and a mother's care.

Each year, life insurance policyowners and their beneficiaries in Canada receive 150 million dollars—five hundred thousand dollars every working day—twenty thousand dollars every hour.

And it is significant that more than 75% of all life insurance payments are made to living policyholders.

arsenate powder to a gallon of water.

Periodic outbreaks of tent caterpillars occur also in the Prairie Provinces. Large areas of woodland and plantations are completely stripped of their foliage and the ravages of the caterpillars cause considerable alarm and discomfort. Sometimes even financial loss in heavily infested districts. The caterpillars have the habit of migrating in large armies in search of new food and frequently swarm over roads and railway tracks in such numbers as to interfere seriously with traffic. Further information on tent caterpillars and how to combat them may be obtained by writing to the Division of Entomology, Dominion Department of Agriculture, Ottawa.

NON-MAGNETIC SHIP TO BE USED BY SCIENTISTS

A ship with no iron or steel in her hull was launched recently in the River Dart at Dartmouth, England.

She is the non-magnetic exploring ship, which will spend her time roaming the ocean so that scientists may study the mystery of electricity in the sea.

Interesting News From Sexsmith

Vol. VII. No. 51

By R. A. MACLEOD June 6, 1939

Many At Funeral Services Of The Late John Barr

Funeral services for the late John Barr were held in Stalberg Hall, Sexsmith, on Thursday afternoon, June 1, at 2:30 o'clock. The building was filled to capacity by his many friends who came to pay their last respects. Services were conducted by the Rev. Geo. A. Shields of Beaver Lodge, and the following were the pallbearers: Messrs. Wm. Alexander, Robert Alexander, Ed. Morgan, Harry Morgan, Tom Kynston, Andy Murchie, S. J. Smith, and J. Smith of Lake Saskatchewan. The casket was banked with flowers and it was one of the largest funerals held in Sexsmith, there being 32 caskets in the funeral cortege to Emerson cemetery, where interment took place.

The deceased left to mourn his loss besides his widow, four children, two boys and two girls, and two brothers residing in Scotland.

MANY AT TEA TO BID MRS. FRANK SUMNER FAREWELL

Mrs. Frank Sumner, who is leaving shortly to make her home in Westlock, was entertained at a tea at the home of Mrs. Art Fenton, Mrs. J. Cook being joint hostess. Tea was served to about thirty guests, who came to bid farewell to Mrs. Sumner and wish her success in her new home.

TOM MEEN DOES FINE AT HIGHLAND SPORTS

News of interest to local people was received from Edmonton with regard to the Highland Sports held in that city on Empire Day. Tom Meen, eldest son of Mr. and Mrs. Jack Meen of Sexsmith, was entered in the 100, 220, and 440-yard races. In the 100-yard dash he came a very close second to Ken Bradshaw, the provincial champion. This race was so close that two of the judges gave the race to Bradshaw and the third judge thought that Meen should have got the decision. In the 220-yard dash Meen came in first, with Bradshaw second, and in the 440-yard run Tom was a close third.

BIG CROWD AT STATION TO SEND LUCKY OXEN ON TRIP TO EDMONTON

There was quite an animated scene on the station platform around noon on Thursday, June 1. It appeared that most of the residents of Sexsmith and a considerable number of the district were present, it being in the nature of a send-off to those lucky enough to be going to Edmonton to take in the sights during the visit of the King and Queen.

The Sexsmith Brass Band was in full attendance, not a member being missing, and played a very lively tune while waiting for the train to leave.

come in. At one time the bass drummer was started, but was finally discovered in the baggage room, saying good-bye to his best girl.

The following from Sexsmith by train: Mrs. Wm. Turner, Bob and Allen, Tommy, and Mrs. Walker, Irma Warden, Olive Foote, Fred Meen and Ted Mober. There was also a large crowd from the Sexsmith district, old and young.

Those going by car: Mr. Wm. Hall, Jimmy Welsh, Bert Hall, Mrs. H. Muttart, Miss Elsie Macleod, Miss Dora Doyrie, Miss Koebcke, Mrs. Mrs. Don Innes, Miss Mary Innes, Mrs. L. R. Gagne, Mr. and Mrs. Norder, Mr. Block, Mr. and Mrs. J. A. Weicker, Miss Muriel Weicker, Mr. and Mrs. S. W. Smith and Isabel, Mrs. Roy Roberts and Eva, Miss Bradley, Mr. Fred McNaughton, Gordon and Freddy, Melville Sumner, Charlie Foote, Mr. and Mrs. Wm. Umbach, Mr. James Foote, Mr. L. R. Howard, Mervin Foster, W. Griffith, Mr. and Mrs. Phillips, Mr. Harry Phillips, Mr. and Mrs. J. C. LeBlond, Mr. and Mrs. Brison, and Mr. and Mrs. Jack Beattie.

NOVEL "ADVERTISING" STARTLES CITIZENS

The few citizens who were left in town on the holiday June 2 were more or less startled by the Miller's truck, with Bill himself at the helm, coming down the street towards evening, returning from a picnic at Bear Lake, with a pair of pink bloomers waving defiantly from the tailboard of the truck. In interviewing Mr. Miller, the writer asked him the reason for this startling display, and the explanation was that he was getting an agency to sell this class of goods, and this was in the nature of an ad.

MR. AND MRS. SUMNER REQUESTS OF GRAIN BUYERS AND WIVES

The grain buyers of Sexsmith and their wives were hosts and hostesses on Monday evening at the home of Mr. and Mrs. Dick Baker to Mr. and Mrs. Sumner, who are leaving shortly for Westlock, where Mr. Sumner has been transferred to.

During the course of the evening Mr. Sumner was presented with a very fine smoking pipe in a case. In conversation with Mr. Sumner this morning he said that he wished to express the appreciation of himself and wife for the kindly send-off.

The following were present: Mr. and Mrs. Sumner, Mr. and Mrs. Baker, Mr. and Mrs. Dave Sutherland, Mr. and Mrs. Menzies, Mr. and Mrs. Hays, Mr. and Mrs. Jack Plain, and Mr. and Mrs. Reg. Little.

2:30 p.m., Choral Union Concert at La Grace Hall. Speaker: Rev. E. N. Torgerson. The theme for the convention is "Living for Jesus."

GIVING AND RECEIVING

A gift is a doubled possession. The Bible does not say "Blessed are those who know how to receive" because those who know how to receive are blessed already.

What we desire to keep we have failed to hold.

What we would once is part of us for ever.

We should honor what we wanted by still wanting it when it is ours.

If we can want what is ours we have acquired the art of possession.

When we can afford to give their freedom to our possessions they really belong to us.

Every claim is the murder of a gift. If we knew how to withhold as easily as we know how to give we should be able to solve the problem of sharing.

We always believe the other to want our self, whereas what he wants is his version of our self.

We are generous as well as wise when we control the volume of our giving.

If we can give ourselves without losing ourselves we can give ourselves again.

We spend our lives in a debtor's prison, chained by the love we have received, barred by the gratitude we feel.

It is only the generous who give to the rich, the big who praise the big, the niggardly save their consciences in doles to the humble poor, making pilgrims into a pilgrimage of greedy patrons in search of grateful victims.

We give to others what we want to give, not what they want to receive.

Princess Antoine in Good House-keeping.

The Philistine of the Bible may have come to Palestine from Crete.

LYMBURN NEWS

DEATH OF MR. ELWOOD

LYMBURN, June 6. We were sorry to hear of the death of Mr. Alfred S. Elwood, who passed away in Grande Prairie Municipal Hospital May 28. Left to mourn him are his wife, son and two daughters. Mr. Elwood was well liked by all who knew him. He was 74 years old.

Funeral services were held in Hythe May 30 and were well attended. Interment was in Hythe cemetery.

Born to Mr. and Mrs. E. Erickson, a daughter.

SPORTS NEWS

The Lymburn men played a baseball game with Hythe Juniors June 2. The score was tied undecided.

The Lymburn softball team went up to Tupper June 3 and defeated both Demmitt and South Swan Lake in softball, the scores being Demmitt 10, Lymburn 15; Swan Lake 8, Lymburn 28, with one more inning.

There will be a dance put on by the girls June 9, in the Lymburn Hall.

Mr. Pete Isaac held the lucky ticket on the five-pound box of candy.

Mrs. Lettington has moved back onto her farm.

Mr. and Mrs. Hamm and family have left our district for Nelson, B.C., to where they motored out by car.

Mrs. Stan Lakis is visiting her parents at Eden and Heard.

Hilda watched all the trains. Venette rocking the boat.

Margy wondering if she should go out in the motorboat.

Milt watching the back seat.

Mrs. Pollock getting hoarse at the ball game.

Mrs. Guise passing around the pop.

Mr. and Mrs. Sander removing chewing gum during school.

STURGEON HEIGHTS

DEATH OF MRS. HARRINGTON CAUSES DEEP REGRET

STURGEON HEIGHTS, June 5.—It is with deep regret that we heard Mrs. D. B. Harrington had passed on last week in Edmonton, where she had gone for treatment. She will be buried in the little cemetery on the hill, "Nellie," as she was affectionately known by everyone, will be greatly missed by her friends and neighbors. She always had a cheery word and never failed to lend a helping hand when necessary.

Our sympathy goes to Mr. Harrington and Willie.

The local club meets June 9, in the school-house. Everybody should attend these meetings and boost for their community.

J. Robinson took a number of the young people to Calais in his Ford V8 to take in the movie and dance.

Miss Irma Barker went to Grande Prairie about two weeks ago, where she will work for a while.

The frequent rains are keeping J. Harrington busy on the mainline; these days.

There will be another show and dance at Taylor's on Sturgeon Lake June 13.

D. Boothroyd, student minister in DeBolt, held services here last Sunday. Don't forget to see him next service, June 18, at 11 a.m.

The Cavett family visited the McArthur ranch last Sunday.

Miss Erna Barker, who is working near Grande Prairie, spent a few hours at home last Sunday.

The softball team was beaten by the Crooked Creek team in the close game of 25-23, played at Crooked Creek. There will be a game here next Friday, June 9, between our boys and Crooked Creek. There will be a club dance in the evening.

HERMIT LAKE

PERFECT ATTENDANCE

HERMIT LAKE—June 5.—Perfect attendance at school for May: Barbara Gillespie, Doreen Gillespie, Olive Gillespie, Charles Gillespie, Dorothy Dunfield, June Ramsden, Francis Ramsden, Ilva Gilmore, Alice Wood, Niel Madsen, Pauline Smook, Bruce McLevin.

Mr. Scarth will speak at the school on Friday night, June 9. Everyone welcome.

Mrs. Prentiss, Mrs. Hays, Mrs. Moore, Mrs. Roberts and Mrs. Anderson entertained the Community Club at a garden party held at the home of Mrs. Prentiss. Everyone had a grand time.

The Island softball team played two games in Wembley last Sunday and won one and lost one.

CAFE REMODELED

Mr. and Mrs. A. L. Park, proprietors of the Club Cafe, have had the place remodelled and redecorated, making it a very cheery place to eat. They said they were in a position to accommodate the public, both in serving refreshments and meals but with rooms as well.

Mr. and Mrs. H. K. Thompson left last Saturday for Portland, Oregon, to spend their holidays. They were accompanied by Mr. Harry Hoosier, who will visit relatives there.

Mr. J. S. Kingsbury who has been in charge of the Frontier Lumber Company branch at this point, is making a trip to the coast of Columbia, B.C. Due to ill-health, Mr. Kingsbury has retired and expects to take up residence in British Columbia. His many friends wish him renewed health and many happy days in years to come.

Bill Swanson left on Monday for the Gundy ranch, where he will be employed for the summer months.

OF OLD THEATRICAL LINEAGE

Introducing Ida Lupino, featured with Fay Bainter in Columbia's "The Lady and the Mob," which was nationally released a few days ago. Miss Lupino comes of a family of actors who have been repeated in the theatre for over 250 years. Her father is Stanley Lupino, noted British comedian, and her numerous talented kin include Lupino Lane and Wallace, who made her screen debut as a featured player in "Her First Affair." Her previous Columbia pictures were "Let's Get Married" and "The Lone Wolf Spy Hunt," in which she played the feminine lead.

DIMS DALE NEWS

THEIR MAJESTIES MAKE BIG HIT

DIMS DALE, June 6.—The King and the Queen have come briefly to Alberta and have departed, but in the humble opinion of your correspondent—an opinion begotten of a close-up view in Edmonton and a careful attention to verbal comment—they have left behind them a lasting impression of a beautiful and pleasant woman and a fine healthy specimen of manhood that will go far to strengthen the bonds of Empire.

It was a source of broad to me, and in no small measure of gratification to hear in the balcony and accents on Edmonton streets the invariable note of respect and compliment in reference to the King and Queen. To maintain the unity and solidarity of Empire, our legislators would be well advised to stress for more frequent Royal Visits.

My respects to the King and Queen—especially the Queen!

Mrs. D. M. Novey in Edmonton visiting her son, Harold, in the University Hospital.

Bill Clarke of Grande Prairie spent the week-end with Ken McIntosh.

Holiday trippers from this vicinity to the outside during the past week were Mr. and Mrs. A. Stephenson and Mr. and Mrs. P. U. Clubine.

TWO RIVERS

TWO RIVERS, June 5.—Everyone enjoyed the radio broadcast of Royal Visit to Edmonton.

Ben Cook is in Grande Prairie Municipal Hospital taking treatments.

Mr. and Mrs. H. Lock had Lawrence take them to Grande Prairie to see "Eddie."

Quite a number of relatives and friends called on Mrs. Roy Cleland to congratulate her on fair-haired daughter, Harriet Maureen.

Doris and Arnold spent Friday at Mrs. Ben Cleland's.

W.M.S. will be held at Mrs. S. Cleland's on June 14.

Mr. and Mrs. D. Chambers entertained on Saturday. Among the guests were Rev. and Mrs. Geo. A. Shields and family, Mr. and Mrs. Tyrell, Mr. Bateman, Ted Chambers and Noel Lean.

Marguerite Leome spent a few days at her home in Hinton Trail.

Rev. Geo. A. Shields held a very impressive service in Halcourt Church on Sunday, when a class of communicants were received. We are sorry this is Mr. Shields' farewell service at this point.

We welcome Mrs. Harrop's sister, Mrs. M. S. Harrop, to the town, and hope she enjoys her visit.

Never To Be Forgotten Scenes During Visit Of Their Majesties In Edmonton

TINY MISS PRESENTS FLOWERS TO QUEEN

Pictured here is Edmonton's little blonde Cinderella, dainty 9-year-old Marie Stacey of the Kiwanis Home, the happy child who was selected to present to Her Majesty Queen Elizabeth a huge bouquet of Johanna Hill roses before the royal party entered the Legislative Buildings Friday afternoon. Gracefully the child curtsied to her Queen, her eyes shining and color bright as the charming sovereign spoke kindly to her and gave her a motherly touch on the shoulder. Marie wore a frock of Alice blue silk fashioned with a short pleated skirt interwoven with sprays of pale pink flowers. The pink was repeated in bows in her blonde hair and she wore short white socks and white slippers.

ARRIVAL OF THEIR MAJESTIES AT THE MACDONALD HOTEL

Royal visitors arriving at the Macdonald Hotel for the dinner tendered them by the provincial government. Part of the huge crowd which milled around the hotel cheering their Majesties until the King and Queen later appeared on the balcony of the hotel is shown as Mounted Police cleared a way through for the King, shown turning to assist the Queen up the steps.

Head of B. P. O. E. Finds Peace River Good Home Land

Highly Pleased With Lodge Work—Attended Many Functions—Big District Picnic At Swan Lake, Where Grand Exalted Ruler Gave Fine Address On "Promotion Of Unity Amongst Canadian People."

BEAVER LODGE, June 6.—John Vaselek of Lethbridge, Grand Exalted Ruler of the B.P.O. E. Elks, has just completed an official visit to the Elks lodges of Districts 11 and 14 in the Peace River country, preparatory to attending the Grand Lodge Convention at New Westminster in July.

Interesting meetings were held with the lodges of High Prairie, McLean, Peace River, Grimshaw, Fairview, Beaver Lodge, Hythe and Rolla. Grand Exalted Ruler Summer of Beaver Lodge also attended some of the meetings, which were all well attended. Entertainment was provided in various forms, including luncheons, banquets, dances, smokers and third degree nights.

In speaking of the lodge work in the Peace River country, Mr. Vaselek was highly pleased with the accomplishments that have been made. The lodges here are carrying on fine work, he said, and do not need to take a back seat to any of them in Canada as regards both

ritualistic work and community service. He expressed great delight at the expanse of the country and stated that when he is ready to retire from his law practice at Lethbridge, he is going to take up farming in the Peace River country.

A picnic for District No. 11 was held on Sunday at Swan Lake, at which over three hundred Elks and their families attended from Hythe, Beaver Lodge, Rolla, Dawson Creek and other lodges. The Elks were treated to all the ice cream they could eat and supper was served at one table.

Children's races and events were held and the Beaver Lodge won over Beaver Lodge in the finals of the inter-lodge softball tournament. The Beaver Lodge Band, under the leadership of Doug McFarlane, rendered some much appreciated music. Patriotic selections were played and Grand Exalted Ruler Vaselek delivered a fine address on "The Promotion of Unity Amongst Canadian People."

Mrs. Vaselek and son, Robert, accompanied Mr. Vaselek on the trip. While here Mrs. Vaselek made an inspection of the Royal Purple Order at Rolla and expressed pleasure at the fine branch of the order they have there.

SOCIAL CREDIT MEETING

The regular meeting of the Grande Prairie Social Credit group will be held in the club room, Friday, June 9, commencing 8 p.m. All members and those interested please attend.

Sat., July 1st ...

(Continued from Page One) ... will commence Saturday morning including a program of sporting events, senior and junior baseball, softball and basketball. For these events there will be good money prizes, details of which will be published later.

All children in the Peace River are invited to attend these sports, and at this is Canada's national holiday children will be admitted free of charge. In the afternoon the day will be charged the nominal sum of 25 cents. The significance of the day will be fittingly recognized. Flags will be displayed and a short address made by someone setting forth the true meaning of Confederation Day—the day on which Canada started to take its place among nations of the world. There will be refreshment booths on the grounds and the picnic idea will be carried out.

The public are asked to keep the date in mind and make it a point to attend with their children and enjoy what promises to be one of the best sporting events ever held in Grande Prairie.

Spirit Of Good ..

(Continued from Page One) ... city was a flood of light. Myriads of lights were strung across the various streets, giving a fairytale effect. The parliament building was outlined with lights, the government having cooperated in the splendid reception.

It was estimated that there were one hundred and ten thousand visitors from all parts of central and northern Alberta in attendance. The city has ninety thousand population, so this meant that for the day the city had a population of two hundred thousand, the largest in its history. It was further estimated that there were sixty-eight thousand people in the bleachers lining Portage Avenue, more than half this number boys and girls.

The Boy Scouts formed a guard of honor, lining both sides of the avenue. In the bleachers the boys and girls from this north country had a prominent place and did their bit in the hearty welcome as Their Majesties drove by.

While the two special trains from the Peace River brought many hundreds, those that travelled by car and truck and plane far exceeded this number. Of the large attendance, the people from the North made up quite a respectable group. Representatives were there from as far west as Hudson Hope.

It was a happy crowd that assembled at Edmonton and joined with the residents of the Capital City in enthusiastically welcoming Canada's King and Queen. The vast multitude felt that the royal party on Their Majesties, whose gracious and democratic manners immediately endeared them to the people of the West. Wherever Their Majesties went crowds were waiting to cheer them.

The finely arranged pageant, in which the various military units took part, was a colorful affair. Veterans of the Great War were out in numbers, wearing bareheaded caps, indicating the divisions with which they served, and medals showing. In respect to the Queen, who is Scottish, the kilt was very much in evidence, there being several pipe bands in full regalia, one coming from Calgary.

Four little girls at intervals danced Highland dances, adding to the inspiring scene on the avenue. A brass band further contributed to the enjoyment of the historical event.

Following the state banquet in the Macdonald Hotel, the King and Queen appeared on the balcony and immediately a mighty shout went up which Their Majesties graciously acknowledged.

It was getting almost dark when the King and Queen made their way to the train between lines of thousands of cheering people standing at the end of the train and waved farewell to the vast crowd that wished them "bon voyage."

And thus ended a day which will long be remembered in the life of the city and province—a day during which the unity of the people, rallying round King and Queen, the symbol of the centre of the British Empire, was truly demonstrated.

Fullest appreciation and sincere thanks were pointed to the royal party given by all citizens in the province on the occasion of the visit of Their Majesties, King George Sixth and Queen Elizabeth to Edmonton was voiced last Saturday by P. W. Abbott, K.C., chairman of the Royal Visit committee in Edmonton.

All members of the committee—A. W. Haddock, city engineer, Milton Martin and Frank Pepper, Edmonton business men, and G. H. Monkman, Deputy Minister of Highways, joined in the announcement. They pointed with pride to the fact that the cooperation given by the public had made possible the record of no serious accidents or other incidents to mar the unprecedented event last Friday.

"We are still receiving congratulations for the display of welcome we presented here in Alberta, and I want to pass this credit on to those who helped make it possible, the citizens of this province," Mr. Abbott concluded.

THE REAL POINT OF THE STORY

Two Grande Prairie men were discussing the recent visit of the King and Queen to Edmonton. "So you saw the King and Queen at Edmonton," observed the man who stayed at the hotel, "but that is not the real point of the story."

"Yes," replied the other, "but that is not the real point of the story. The real point is that the Queen had the opportunity to see me."

THIS WEEK: "COCONUT GROVE" with Fred McMurtry, Harry Hillard, Ben Blue and The Yacht Club Boys.

NEXT WEEK: Monday, June 12, 12, 14—Robert Montgomery and Virginia Bruce in "YELLOW JACK," with Lewis Smith, Andy Devine and Buddy Ebsen.

ERECTOR OF CABINS AT FALLS PROGRESSING, SAYS A. WATT

Alex. Watt, manager of the Monkman Pass Transport, Limited, spent about time in Grande Prairie on Wednesday, while en route to the town of Peace River.

In conversation with The Tribune reporter, Mr. Watt stated that progress was being made in the erection of cabins at the Peace Falls from which point the company will operate the river country.

Mr. Watt further stated that, while the road to the Falls was improving, Kinuso Falls, he said, are gorgeous, the recent rains having turned this now famous cataract into an enormous torrent of falling water.

GENERAL WESTERN MANAGER FOR ROBIN HOOD FLOUR MILLS DIED AT CALGARY TUESDAY

C. R. Venables, general sales manager for Robin Hood Flour Mills, Ltd., in western Canada, died in Calgary on June 6. The funeral was held today, Thursday, June 8.

Mr. Venables was well known and had many friends throughout the Peace River country, having made annual trips for several years.

ANNUAL GOLF TOURNAMENT OF CONSERVATORS JUNE 18TH

The annual Golf Tournament of the Conservators of the Peace River will be held in the town of Peace River on Sunday, June 18. On the evening of June 17 there will be a banquet.

Energies from the south side of the Peace River should be turned in to Dennis Law, Grande Prairie, and for the north side to Wm. Stewart, Peace River, before noon on June 17.

Light Docket At Sitting of Supreme Court At G. P.

A sitting of the Supreme Court was held at Grande Prairie on Tuesday and Wednesday, His Lordship Justice Tweedie presiding.

Two divorce cases and a claim for royalty on coal mined were disposed of.

Michael Roth was granted a final order from Margaret Roth. J. Archer acted for the plaintiff.

Orva Margaret Schukohl was granted a divorce from Charles Schukohl. Decree nisi. J. H. Sissons appeared for the plaintiff.

In the mine case, T. Russell vs. W. Stevens, S. Smith appeared for the plaintiff and W. W. Patterson for the defendant. The case was a complicated one and after hearing the evidence His Lordship suggested a settlement and referred the dispute to the clerk to ascertain how much coal had been mined. The clerk's report was later submitted and judgment given for plaintiff for \$180 and costs.

DIRECTOR OF CIVIL AVIATION INSPECTS LOCAL AIR FIELD

T. C. Wilson, Director of Civil Aviation for the Dominion, accompanied by T. L. Dawson, Inspector of Airways, arrived in Grande Prairie last Friday in a Department plane to inspect the local air field.

Mr. Wilson was well pleased with the field but criticized the condition of the waiting room and the sanitary arrangements.

The officials are inspecting all the air fields in the Peace River and the Bloomsburg area.

FIELD DAY ON INSECTS AT BEAVER LODGE SUBSTATION

BEAVER LODGE, June 6.—A field day to discuss insect pests will be held at the Substation here on Saturday afternoon, June 10, commencing at 2:30 o'clock. It will be addressed by Kenneth M. Paine, of the Dominion Entomological Laboratory at Saskatoon, Sask., who has been experimenting with the Beaver Lodge cutworm baits and will be leaving by plane on Sunday.

Mr. King is a recognized expert on wireworms and red-backed cutworms and also well informed on grasshoppers and other insects. An afternoon with him is always well spent. The provincial government field men are also expected. The summerfall season is on. Here is a chance to learn how to farm and control wireworms and cutworms.

Spirit River Sports Much Enjoyed By Fair-Sized Crowd

Grande Prairie Defeats Spirit River To Win Baseball Tournament—Horse Races Were All To The Good—Big Dance Brings Success To Endeavour.

SPRIT RIVER, June 8.—There was a fair-sized attendance at the annual sports here yesterday and the weather man was very kind, furnishing ideal weather, sunny skies in everything.

The horse races were all to the good and baseball held the centre of an all-round first-class program.

In the baseball section Spirit River eliminated Beaver Lodge. Spirit River and Grande Prairie then met in the final, the Prairie winning by a safe margin.

The chariot race furnished the real thriller in the horse races. Frank Donald's entry of big bays got away to a bad start and it looked as if they had no chance. However, gradually they crept up on the other entries and won by about twenty feet in a smashing drive to the wire.

Many attended the picture show in the afternoon and a big dance brought the day to a successful close.

A street parade put the day away to a good start.

WENSTOB-WARRINGTON BOUT AT EDMONTON ENDS IN DRAW

A draw was the decision of the judges at the Edmonton Arena when Eddie Wenstob of Edmonton and Tiger Warrington, the colored scrappier from Nova Scotia, battled last Thursday for the light heavyweight championship of the Dominion. The route was fifteen rounds.

Jim Ryan of Grande Prairie, who saw the fight, is of the opinion that the colored man never really let loose.

H. Honor Judge H. E. Robertson was a passenger on Tuesday's train en route to Peace Coulee to hold court.
